Move-In Day

To facilitate a smooth and pleasant move-in day please read the following information about moving into your new Copley apartment.

Boston residents: Remember to apply for a 1 Day Moving Van Permit from the City which allows the permit holder to restrict access to a portion of the street for a specified length of time. This is essentially reserved parking for your moving truck! Please take advantage of this service as The Copley Group does not have the capacity to provide temporary parking permits.

On move-in day, keys are made available as soon as your apartment is made ready for occupancy, which typically is any time between 2pm-5pm. Please schedule your moving truck accordingly. **Please note that not all apartment keys will be ready for pick up at 2pm. All apartments will be ready for occupancy by 5pm.**

Picking up the keys to your new apartment- Keys are given out on the first day of your lease between 2pm- 5pm. Keys may be picked-up at our maintenance office by you or you may arrange with your broker to pick up the keys for you. *Key pick up occurs on the first day of your lease unless you request a delayed move-in or would like your apartment to be painted and or have the floors treated with polyurethane.*

Since outgoing residents typically vacate their apartments on the last day of the month, and new residents move in on the first of the month, the only way we can be assured that new residents move in to a clean, problem free apartment is by making sure that we get to the apartment before you do. We are proud of this service and it is the reason why keys are given out during assigned time periods. **After moving in, if you are not satisfied with the condition of the apartment please call our maintenance office and we will attend to the situation as soon as possible.**

Prior to moving in every Copley apartment is cleaned, serviced by our maintenance department, inspected and supplied with a brand-new toilet seat, plunger, and shower curtain.

Mailbox- You will be receiving a blank label when you pick up your keys. Please write your last name(s) on the label and place it inside the mailbox on the back wall. Please note that your mail may not be delivered if you do not do so.

Door Entry System Instructions

Please find your building below to see which door entry system you have and how it works.

For residents of:

15-19 Queensberry Street	120-124 Peterborough Street
98-106 Queensberry Street	51-55 Queensberry Street
105-111 Queensberry Street	

Your building is equipped with a DoorKing Telephone Entry System (or similar)-which acts as an intercom system allowing communication between a guest in the lobby and a resident at home and allows residents to “buzz” guests into the building. DoorKing works with local, out-of-state and mobile numbers.

To activate the system please email residentservices@thecopleygroup.com and provide your you address, last name, and the telephone number that you want to be tied to DoorKing System. The entry system will not be activated until your telephone number has been entered into the system by our maintenance department.

HOW TO USE THE DOORKING SYSTEM

The Copley maintenance department customer service coordinator will program your name, apartment number, and telephone number into the telephone entry system under a specific DIRECTORY CODE.

1. Use the DoorKing’s A and Z buttons to look up a resident’s name. The Directory Code will be displayed to the right of the resident’s name. **Resident phone numbers will not be displayed.**
2. Enter the Directory Code on the DoorKing system keypad.
3. Press the Call button.

GRANTING OR DENYING ACCESS

Once you have answered the phone call and you have identified your guest, you have to either grant access or deny access to your guest.

1. **To grant access to your guest, press 9 on your touch tone telephone.** The telephone entry system will respond with a confirmation tone indicating that the door is opening and will automatically disconnect itself. Some newer telephones emit a very short duration tone when the number is pressed. If your telephone does this, you may have to press the open number twice in rapid succession to open the door.
2. **To deny access to your guest, press 2.**

For residents of:

7 & 9 Myrtle Street

Your building is equipped with a Trigon Telephone Entry System (or similar), which acts as an intercom system allowing communication between a guest in the lobby and a resident at home and allows residents to “buzz” guests into the building. Trigon works with local landline numbers best and we can’t guarantee the system will work with a mobile number.

To activate the system, you will need to call the maintenance department at 617-536-9339 and give the maintenance customer service coordinator your telephone number. The entry system will not be activated until your telephone number has been entered into the system by our maintenance department.

HOW TO USE THE TRIGON TELEPHONE ENTRY SYSTEM

The Copley maintenance department customer service coordinator will program your name, apartment number, and telephone number into the telephone entry system

1. Guests should press the red button on the directory and enter the appropriate apartment number
2. Press zero on your phone to allow access
